Ken-A-Vision® offers easy-to-use, digital document cameras. Only one cable set-up.

Simply plug the document camera into the USB port, launch the Applied Vision™ 4 Software and go!

With the Ken-A-Vision Digital Vision Viewers, it is easy to capture images and movies. Vision Viewers offer one cord convenience, no confusing cables to sort out that can bring your lesson plan or presentation to a stand still. No confusing buttons to fumble with on the unit because you use the mouse on your computer.

The NEW 7880 Auto Focus Vision Viewer™ & the 7890UM Digital Vision Viewer™ deliver superior image quality in real time. Display documents, nearby objects or even objects at a distance. Vision Viewers by Ken-A-Vision... making it easy to focus on teaching.

Ken-A-Vision Presents... **Vision Viewer Digital Document Cameras**

NEW! 7880 Auto Focus Vision Viewer

7890UM Digital Vision Viewer

Ken-A-Vision introduces the newest addition to their product line, the Auto Focus Digital Vision Viewer, the ideal solution for replacing the old overhead projector. This camera features auto focus, a factory-installed USB cable, 1280 X 1024 SXGA resolution, and comes complete with Applied Vision 4 Software.

The Digital Vision Viewer 7890UM has an HD camera and a USB 2.0 connection for a fast connection to your computer.

Powered with only one USB plug

Auto-adjust screen sizes

Dynamic small footprint with no buttons

Software for global sharing and virtual collaboration

Applied Vision 4 Software

Applied Vision 4 Software (AV4) enables you to connect your Ken-A-Vision digital product to your computer for viewing, capturing and manipulation of video and still images. AV4 is optimized for use in a classroom setting as well as any environment in which digital imaging is required.

Key features include: multi-camera support, full screen viewing, digital zoom, video rotation, time lapse recording, and much more.
